Timetabling & Scheduling

Scheduling to create an institutions timetable is complex, but it doesn't have to be

Introducing TechnologyOne's Timetabling & Scheduling, a solution to enhance student and staff experiences by optimising and streamlining timetabling, resource booking and exam scheduling to future-proof your institution.

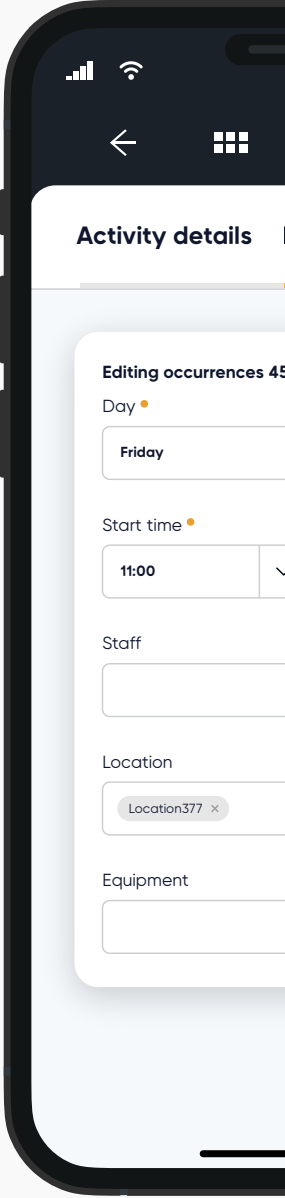

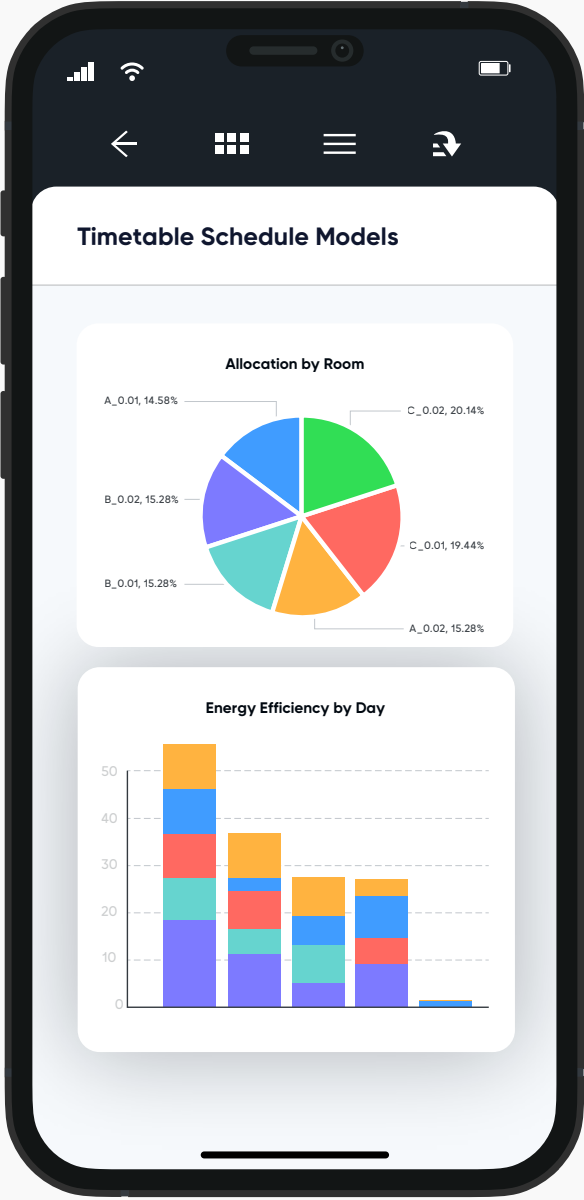

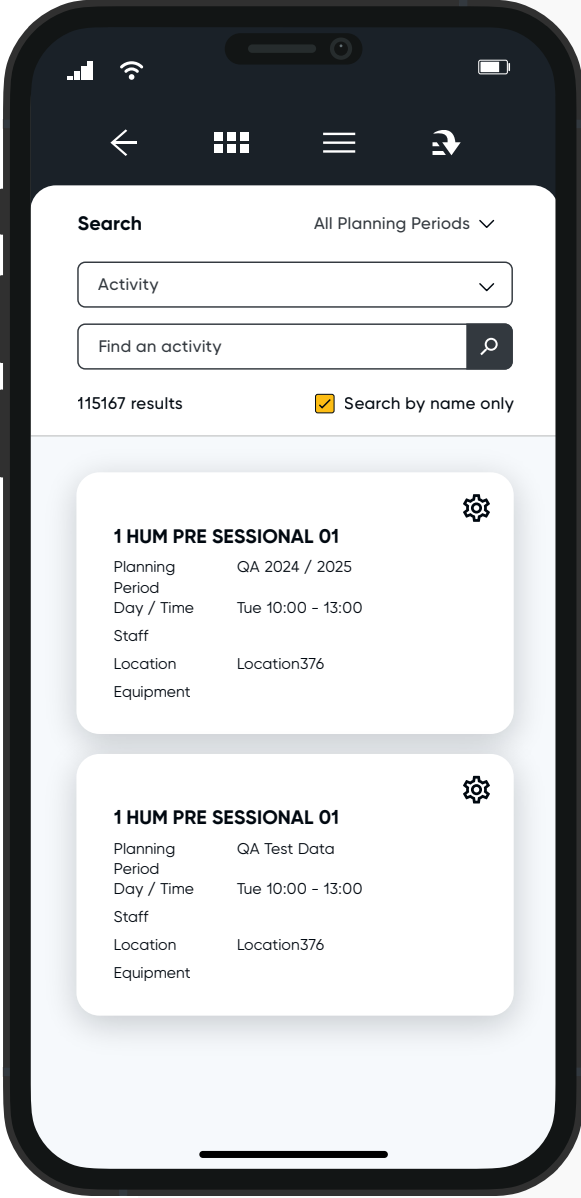

Prioritise staff and student satisfaction while effectively managing the competing demands on academic resources with our sophisticated scheduling and resource management solution built for academic institutions.

Make complex scheduling simple and enhance the student experience with our powerful and intuitive tools.

Make the most of your resources by empowering staff and students to easily create and manage their own room and resource bookings, reducing the administration burden on staff, saving time and money.

Streamline your academic institution's processes today with flexible scheduling for any type of course or programme, on an individual, group, class or course level.

With powerful automated features, the heavy lifting is done by our software.

"We've been able to increase engagement because the screens look so fantastic and really have that 'wow' factor."

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a **true SaaS** solution

Reinvent your system in a way no legacy software can – Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences – on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your

systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Increase student satisfaction

Deliver an exceptional experience by enabling students to seamlessly manage class and exam schedules, book resources and communicate easily with staff. Integrating class and exam timetables into personal calendars ensures that information and updates are quickly communicated directly to students' devices, supporting student success.

Improve staff experience

Optimise staff workloads and easily manage staff changes associated with flexible working requests. Online personalised timetables can feed directly into Outlook 365 to enable a complete overview of all diary commitments.

Be confident in your decision making

Have actionable insights at your fingertips any time, anywhere on any device to enable your institution to make evidence-based decisions with our powerful reporting and analytics tools.

Improve efficiency

Optimise resource utilisation by simplifying the booking of all resource types to maximise usage across your institution.

Enhance sustainability

Achieve an energy efficient campus by optimising room usage and future-proof campuses with our powerful scenario planning features.

Always up-to-date

Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by one annual fee.

Secure & scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Complex scheduling made simple

Managing people, places, and resources effectively across multiple faculties and sites is one of the biggest challenges faced by educational institutions.

Creating an education timetable is complex, but our tools ensure maximum efficiency, allowing institutions and providers to focus on delivering compelling student and staff experiences, academic excellence, and strategic planning. Streamlining scheduling and resource allocation saves precious time and money.

Foster a more organised and responsive learning and teaching environment, improving the experience for both students and staff while allowing you to focus on your core mission.

Timetabling & Scheduling

Class Scheduling

Auto-schedule timetables with the ability to set constraints. View and edit timetables, allocate staff, students and resources to activities and detect and resolve scheduling issues.

Exam Scheduling

Enhance the student experience with a dedicated scheduling engine that allows you to create balanced exam timetables. Automatically cater for students that require additional exam adjustments and consider time constraints of staff and invigilators.

Resource Booking

Empower students and staff to manage room and resource bookings on any device, anywhere, at any time, reducing your institution's workload. Easily display timetables on digital panels and enable instant room bookings directly outside the room.

Personalised Timetables

Deliver draft and final personalised timetables to staff and students through a responsive web interface, available on any device. Notifications keep them up to date with last-minute changes.

The highest level of cyber security

Secure your digital environment and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your organisation has the latest protection against emerging threats.

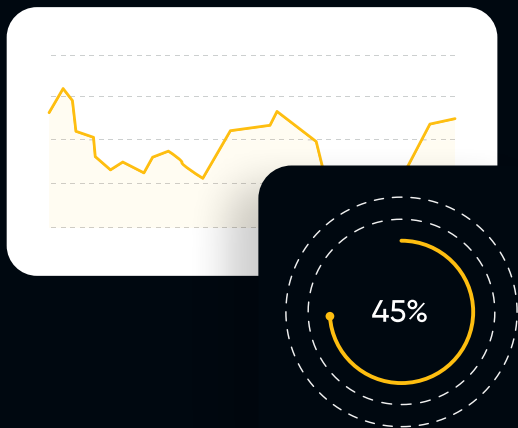

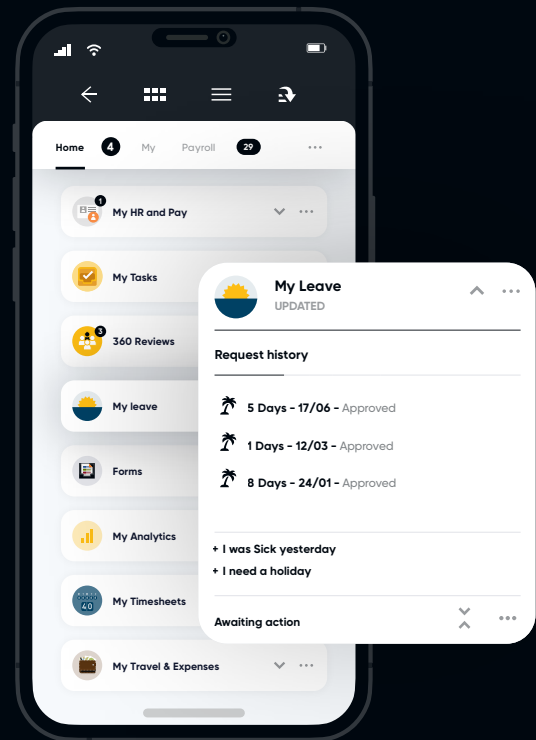

TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D)

centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered

a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

Making life simple
for our community
