Business Analytics

Running an organisation can be complex, but analysing your data shouldn't be

Introducing TechnologyOne's Business Analytics, a single, integrated SaaS solution designed to provide real-time intelligence to help you answer the most critical business questions with confidence, speed and accuracy.

In today's data-rich landscape, making decisions based solely on intuition is no longer sufficient. But manually analysing data can be time-consuming, prone to errors and may only scratch the surface

of what the data can reveal. Being able to enquire and drill down into data is crucial for organisations to be able to identify patterns and make data-driven decisions to optimise

service delivery and operations and identify community needs.

It enhances transparency and accountability, fostering trust and engagement with an organisation's community.

"Business Analytics has changed the way our people think about data – they're more interested and are making better decisions because of it."

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a **true SaaS** solution

Reinvent your system in a way no legacy software can – Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences – on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Access real-time business intelligence

Connect and explore your data and gain real-time business intelligence into your organisation to turn insight into action.

Data you can trust

Have confidence in your data to make evidence-based decisions backed by comprehensive and accurate analysis that ensures data integrity and minimizes errors.

Empower your people

Simplify data exploration with a user-friendly interface, enabling your team to uncover actionable insights through self-service analytics that are readily shareable.

Visualise your data

Visually analyse your data with a range of diverse and engaging options including tables and charts.

Flexibility

Prepare, analyse and drill down into your data on any device, anywhere, at any time allowing genuine real-time operations and a flexible, responsive workforce.

Reduce cost, risk and implementation time

Cut costs, save time and mitigate risk with our no-code configuration and pre-configured dashboards. Easily build and embed analytics faster and customize them to suit your business needs.

Always up-to-date

Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by one annual fee.

Secure & scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Uncover insights, ignite success

Make everyone a data hero with a true SaaS solution that will enable you to visualise, collaborate and act quickly on real-time business information.

With our no-code configuration, easily build and embed analytics and customise the solution to suit your business needs.

Our easy-to-use platform makes it simple for any staff to use to explore and visualise data to make better business decisions.

Business Analytics

Reporting

Create and automate XLOne reports tailored to your specific needs to provide easily accessible and accurate information in a recognizable and familiar format.

Configurable Analytics Enquiries

Allow staff to pivot, drill-down and analyse data in a way that suits them.

Data Exploration

With the ability to query data and apply business logic within Data Models, staff can uncover hidden patterns, trends, and correlations, enabling data-driven decision-making.

Customisable Dashboards

Quickly configure visually appealing and informative dashboards with a rich library of visualisations to choose from to effectively communicate the value of your data and drive actionable insights.

Data Visualisation

Visualise your data in real-time ensuring you always have access to the most up-to-date information. Whether monitoring key performance indicators, tracking revenue and expense trends, or analysing customer behaviour, users can make timely decisions based on the latest available data.

Integration

Business Analytics seamlessly integrates with TechnologyOne products and their data sources allowing users to leverage their data assets without the need for complex data migrations or transformations, saving time and resources while ensuring data integrity.

TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D)

centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered

a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.
